

ARJUN MEHTA

arjun.mehta@email.com | 9876543210 | Bangalore

SUMMARY

Senior AI Engineer with 6 years of experience building production ML systems on Azure. Expert in Python, Azure OpenAI, and multi-agent AI system design.

SKILLS

Python, Azure ML, Azure OpenAI, Azure AI Foundry, FastAPI, Docker, Kubernetes, PostgreSQL, Machine Learning, NLP, LangChain, GPT-4, REST APIs, Git, CI/CD, Terraform, Redis

EXPERIENCE

Senior AI Engineer — TechCorp India (2022-2026)
Built ML pipelines processing 1 million records daily using Azure ML and Python. Deployed GPT-4 powered applications on Azure OpenAI. Led team of 5 engineers. Reduced model inference time by 60 percent through optimization. Designed multi-agent AI systems for automated document processing.

AI Engineer — AI Startup (2020-2022)
Built NLP models for text classification achieving 94 percent accuracy. Deployed models using Docker and Kubernetes. Developed FastAPI backends for ML model serving. Worked with PostgreSQL and Redis for data storage and caching.

Software Engineer — IT Company (2018-2020)

Python development and REST API design.

Azure cloud services integration.

Agile development with cross-functional teams.

EDUCATION

M.Tech Artificial Intelligence — IIT Hyderabad (2018)

B.Tech Computer Science — NIT Warangal (2016)

CERTIFICATIONS

Microsoft Azure AI Engineer Associate

Google Professional ML Engineer

AWS Machine Learning Specialty

ACHIEVEMENTS

Published 2 research papers on NLP in IEEE conferences

Reduced hiring costs by 40 percent using AI automation

Led successful migration of ML platform to Azure

Open source contributor to Hugging Face transformers
